

Client Credit Service

Marchants Solicitors have teamed up with Iceberg Client Credit LLP to offer clients a facility to finance the costs of the divorce for up to 36 months (3 years) or when the case is completed if sooner.

Unlike other types of finance there are no upfront application fees and because loans are unsecured, opening an account is quick simple and inexpensive.

The facility is particularly attractive for clients where the value of any divorce financial settlement can be readily determined to meet the legal costs but where clients cannot afford to pay during the course of proceedings.

This facility is subject to a case suitability test and other terms and conditions with interest and charges to pay in addition to the sum/s borrowed. It can be used for the whole or part of a case.

For more information and to see if this service might apply to your case please contact Nick Aspley at naspley@marchantsolicitors.co.uk or ring him on 01623 655111.
