

Have You Been Injured In An Accident At Work?

Whilst at work, your employer has a duty to protect you. If your employer fails in that duty you may be able to claim compensation for any injuries you may sustain. This can also include pursuing a claim against your employer for the negligent acts of your co-workers.

In the unfortunate event that you are involved in an accident at work please ensure that the incident is recorded in the employers Accident Book. Make sure that you make an appointment to see your GP or visit the hospital and explain fully how you sustained your injury.
