

## Clinical Negligence

The majority of us receive treatment from time to time from healthcare professionals and whilst for most of the time the treatment received is of a good standard there are occasions when the treatment falls below what can reasonably be expected.

If you have unfortunately been involved with a Healthcare Practitioner (Hospital, Dentist, GP, Physiotherapist etc) where the treatment you received fell below what you could reasonably expect we have a solicitor dedicated to pursuing complaints and/or claims for compensation against the individual or Trust.

You are entitled to a free no obligation interview after which if we believe that your claim has prospects of success we can offer you a No Win No Fee Agreement.

In order to arrange your free initial interview please contact Debra Higgins on 01623 655111 or email [dhiggins@marchantsolicitors.co.uk](mailto:dhiggins@marchantsolicitors.co.uk)
